Narrative Description of Indicator

Data reported for Indicator 8A is based on a review of 990 Early Intervention Records, which is 29.1% of all children who transitioned at age 3 between 7/1/09 and 6/30/10 (n=3,405). This sample size represents a 2.6% margin of error with a 95% confidence level. Data were collected from all 24 jurisdictions.

To report the target data for these indicators 8B and 8C, MSDE generated State and local reports throughout the reporting period from the statewide Part C database, and validated data in conjunction with LITPs. The data for Indicator 8B were obtained from the Part C database's transition report, specifically the number of transition meetings held for children turning 3 years of age between 7/1/09 and 6/30/10. It is State and local policy to invite Part B staff to these meetings and to provide Part B staff with names, addresses, phone numbers, and birthdates of children potentially eligible for Part B. The data for Indicator 8C are based on the calculation of the number of days between the date of the transition planning meeting and the child's third birthday. The number/percent of meetings held within the timelines and the reasons why meetings are not held within timelines are provided. When the date of an untimely transition planning meeting (date later than 90 days before the child's third birthday) is entered into the database, a prompt appears requesting that the reason for the late meeting be entered.

A. During the reporting period, 986, or 99.6%, of the records reviewed by MSDE and LITPs had transition steps and services (n=990).

B. Between 7/1/09 and 6/30/10, local school systems were notified of 99.8% (3,398) of potentially eligible children who transitioned during the time period (n=3,405).

C. Between 7/1/09 and 6/30/10, 99.6% (3,121) of children who transitioned had a transition planning meeting within the timeline or there was a documented family-related reason for the delay (n=3,134).

LITPs that did not attain 100% compliance for sub indicators A, B and/or C, were required to develop and implement corrective action or improvement plan strategies and, as necessary, received technical assistance from MSDE.

- 8A - IFSPs with transition steps and services.

- 8B - Notification to LEA, if child potentially eligible for Part B.
- 8C - Transition conference, if child potentially eligible for Part B.
