Narrative Description of Indicator

Local school systems and public agencies reported a total of 22 out of 1877 students, or 1.17%, whose eligibility determination or IEP development did not occur by the third birthday, as having "Acceptable Reasons for Delay." Acceptable Reasons for Delay include "Parent & IEP Team have a written agreement to extend the timeline"; and, "Parent repeatedly failed or refused to make child available." Unacceptable reasons for delay included: School/Facility Closure (1); and Other reason (1).

The range of days beyond the third birthday for eligibility determination or development and implementation of the IEP for all reasons cluster around the following ranges:

- 1 day to 15 days – 1 or 0.05%
- Beyond 45 days – 1 or 0.05%

Two jurisdictions' Local Infants and Toddlers Programs (LITPs) had all participating families choose for their child to continue to receive early intervention services through an Extended IFSP after age three. There were, therefore, no children in this jurisdiction who transitioned from Part C to Part B for this reporting period.
