States were directed by the U.S. Department of Education, Office of Special Education Programs (OSEP) to establish new baseline data for the 2011/2012 reporting period. Due to revisions in the federal Preschool Least Restrictive Environments reporting categories, these data were not reported to OSEP as part of the State Performance Plan(SPP)/Annual Performance Report (APR) from 2005/2006 through 2010/2011. Informed by the 2011/2012 baseline data, New State Targets were established for 2012/2013. For FFY 2014 (2014-2015 school year) State Targets were not met for either 6a, children participating in an early childhood program with the majority of IEP services provided in that program, or 6b, children served in a separate special education class, separate school or residential facility.
