Narrative Description of Indicator

Indicator 5 consists of three subindicators, 5A, 5B and 5C.

This site does not show breakdowns by race, ethnicity, age and gender. Those breakdowns are shown in the Maryland Census Report. To view the Maryland Census Report click (or Ctrl + Click) [here](#) View Census Report.

- 5A - Percent of children with IEPs aged 6 through 21 removed from regular class less than 21% of the day.
- 5B - Percent of children with IEPs aged 6 through 21 removed from regular class greater than 60% of the day.
- 5C - Percent of children with IEPs aged 6 through 21 served in public or private separate schools, residential placements, or homebound or hospital placements.

Other Data for this Indicator

[View Indicator 5A](#) - The October 2007 Child Count showed that 62.35% of students who receive services outside the regular class for less than 21% of the day met the State's FFY 2007 target of 60.61%. This data represents progress and has steadily increased since 2003. All four local school systems that were below the State's target in the last APR remain below the State's target this year and all four have made progress. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5. The completion of this document requires the local school system to collect, analyze and submit improvement activities if the LRE data are significantly below the State's target.

[View Indicator 5B](#) - Similarly, 15.82 % of students who receive services outside the regular class greater than 60% of the day met the State's target of 16.36%. This data represents progress and has decreased since 2003 to its present level. All four local school systems that were below the State's target in the last APR remain below the State's target this year, but three of the four have made progress by decreasing the percentage of students served in this placement. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5. The completion of this document requires the local school system to collect, analyze and submit improvement activities if the LRE data are significantly below the State's target.

[View Indicator 5C](#) - The State's separate facilities placement data was 7.80% and did not meet the State's target of 7.17% by 0.63%. Due to a decrease in the State's overall child count, the October 2007 data reported in this APR demonstrated no appreciable

change even though the number of students in such placements decreased. Analysis of the data by placement type within the category also remains relatively unchanged. Five local school systems had data that was below the target or significantly below the target. Four of the five are the State's largest school systems. One of the five is a local school systems is under a court ordered consent decree. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5. The completion of this document requires the local school systems to collect, analyze and prepare improvement activities if the LRE data are significantly below the State's target.
