### Narrative Description of Indicator

Indicator 5 consists of three sub indicators, 5A, 5B and 5C.

- 5A - Percent of children with IEPs, aged 6 through 21, served inside the regular class 80% or more of the day.
- 5B - Percent of children with IEPs, aged 6 through 21, served inside the regular class less than 40% of the day.
- 5C - Percent of children with IEPs, aged 6 through 21, served in separate schools, residential placements, or homebound / hospital placements.

### Other Data for this Indicator

[View Indicator 5A](#) - The October 2009 Child Count reported that 64.80% of students receive services inside regular education or more of the day. This exceeded the State's FFY 2009 (school year 2009-2010) target of 61.61%. This data represents progress and has increased since 2003. Although there were three local school systems that were below the State's target, all show progress. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5A. The completion of this document requires the local school system to collect, analyze and submit improvement activities. If LRE data are significantly below the State's target. The State also offers competitive grant opportunities for local school systems to implement improvement, maintenance or enhancement activities.

[View Indicator 5B](#) - During the school year 2009-2010, 14.55 % of students receive services inside regular education less than 40% of the day. This met the State's target of 15.86%. Although three local school systems did not meet the State's target, this data shows progress.

represents progress and has decreased since 2003 to its present level. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5B. The completion of this document requires the local system to collect, analyze and submit improvement activities if the LRE data are significantly below the State's target. The State also offers competitive grant opportunities for local school systems to implement improvement, maintenance or enhancement activities.

[View Indicator 5C](#) - 7.33% of the state's students with disabilities were served in separate schools. The percentage did not meet the State's target of 6.67 %. The data reported in this APR demonstrated no appreciable change overall. Analysis of the data on placement type also remains relatively unchanged. Each local school system completes an annual *Self-Assessment* document which includes a review of data on Indicator 5C. The completion of this document requires the local school systems to collect, analyze and prepare improvement activities if the LRE data are significantly below the State's target. The State also offers competitive grant opportunities for local school systems to implement improvement, maintenance or enhancement activities.
